Wm. D. Greetham.

Prayers which may be used at the Meetings of the Board, in conformity with By-Law II.

OUR FATHER, who art in heaven, Hallowed be Thy name. Thy kingdom come. Thy will be done on earth, as it is in heaven. Give us this day our daily bread. And forgive us our trespasses, as we forgive those who trespass against us. And lead us not into temptation; But deliver us from evil: For Thine is the kingdom, and the power, and the glory, forever and ever. Amen.

DIRECT us, O Lord, in all our doings, with Thy most gracious favor, and further us with Thy continual help; that in all our works begun, continued, and ended in Thee, we may glorify Thy holy name, and finally, by Thy mercy, obtain everlasting life; through Jesus Christ our Lord. Amen.

O LORD, who hast taught us that all our doings without charity are nothing worth; send thy Holy Ghost and pour into our hearts that most excellent gift of charity, the very bond of peace and of all virtues, without which whosoever liveth is counted dead before thee. Grant This for Thine only Son Jesus Christ's sake. Amen.

O FATHER of mercies and God of all comfort, our only help in time of need; look down from heaven, we humbly beseech Thee, behold, visit, and relieve those sick *persons* who are under our care. Look upon *them* with the eyes of Thy mercy; comfort *them* with a sense of Thy goodness; preserve *them* from the temptations of the enemy; give *them* patience under *their* affliction; and, in Thy good time, restore *them* to health and enable *them* to lead the residue of their lives in Thy fear, and to Thy glory. Or else give *them* grace so to take Thy visitation, that after this painful life ended, they may dwell with Thee in life everlasting; through Jesus Christ our Lord Amen.

O GOD, from whom all holy desires, all good counsels and all just works do proceed, send down Thy blessings upon the Charitable Institution with which we are connected. Give to us, its managers, such wisdom, faith and patience, that we may overcome every difficulty, and so conduct its affairs that Thy glory may be promoted, and the temporal and spiritual comfort of many of Thy people be advanced. Be ever with us in our deliberations, that by Thy holy inspiration we may think those things that are good, and by Thy merciful guiding may perform the same. Stir up the wills of thy faithful people and open their hands, that means for carrying forward this work may be liberally supplied, and knowing what thing they ought to do, may they have power and grace faithfully to fulfil the same, through Jesus Christ our Lord. Amen.

SIXTH ANNUAL MEETING OF CONTRIBUTORS.

Tuesday, January 6th, 1857.

At a meeting of the contributors to the Hospital of the Protestant Episcopal Church in Philadelphia, held this day, pursuant to the charter, at the Episcopal Rooms, Clayton T. Platt, Esq., was called to the Chair, and Dr. Morris, was appointed Secretary.

The reports of the Treasurer, of the Medical Board, and of the Board of Managers, were severally presented, and referred to the Board of Managers for publication.

The following gentlemen were elected Managers to supply the places of those whose terms expired this day, for a term of three years, viz :

Rev. M. A. DE WOLFE HOWE, D.D.,

Rev. RICHARD NEWTON, D.D.,

Rev. WM. BACON STEVENS, D.D.,

JOHN BOHLEN,

JOS. R. INGERSOLL,

WILSON C. SWANN, M.D.,

CLAYTON T. PLATT.,

EDWARD HARTSHORNE, M.D.,

On motion adjourned.

CLAYTON T. PLATT, *Chairman,*

CASPAR MORRIS, *Secretary.*

FIFTH ANNUAL REPORT OF BOARD OF MANAGERS:

It is with mingled emotions of gratitude and humiliation that the Managers of the Hospital of the Protestant Episcopal Church present to the Contributors their Fifth Annual Report: gratitude that they have been permitted to accomplish anything, small as is the amount, towards mitigating the sufferings, and soothing the sorrows of our fallen humanity; humiliation that they have not been able to accomplish more.

When they survey the immense field for philanthropic effort presented by our city, and think how thickly it is planted with those ills which man's transgressions have brought upon earth; when they look at a population of nearly half a million, and remember how large a proportion of these, must, by the necessity of the case, stand in need of assistance in the time of sickness, and comfort in the hour of death; and contrast with it the fact, that though the Pennsylvania Hospital opens its wards and spreads its free beds for the reception of about one hundred male and female medical and surgical charity patients, at all periods, and that noble as are the accommodations presented by that venerable charity, and ample as are the provisions made for the comfort and relief of those it does receive, its charities are limited both by its limited ability and by the limitation of distance; while to the few free beds of the St. Joseph's, and the small number we are yet able to support, are left the provision for the entire population of the northern part of the city, as well as the poor of our own Church at large. We cannot omit to avail ourselves of the opportunity presented by the recurrence of the Annual Meeting, to press on the

consideration of our fellow citizens, and our fellow members of the Protestant Episcopal Church especially, a new appeal for enlarged contributions. This is necessary to enable us to maintain the scale of action already adopted. So greatly has the cost of all the necessities of life advanced during the past and the preceding year, that it is absolutely impossible for us to avoid a large increase of expenditure. While the operation of the same cause creates an increased demand for our aid. It would be very injudicious economy to diminish the number of the recipients of our benevolence, since there are many of the expenses, and those too of the greatest proportionable magnitude, which would not be at all diminished, but must be as great for a small as for a large number of patients. Nor can it be necessary to remind those who have already taken an interest in the Hospital, that the present arrangement was not designed to be anything more than the germ from which an institution should be developed, more extended in its influence and better proportioned as well to the ability of our Church, as to the demands on our charity.

It is often necessary in the progress of such institutions to recur to the consideration of the principles on which they were founded, and the objects proposed in the organization. In our own case it was clearly to furnish a channel through which the charity of the Members of our Church could be applied to the relief of those suffering from sickness and poverty, without regard to the "creed, colour or country" of those who should be the objects of beneficence. The only claim to be presented by these was recognised in the description given by our Lord of those whom He constituted His representatives, "naked" and "sick." It was to enable the members of our Church to "visit" such with efficient relief that the Hospital was founded, and

we, to-day, present to you the same plea for enlarged contributions. These are absolutely necessary not only to the progress, but to the existence of the institution, since with it as with all human arrangements, to pause is to begin to die. It is not designed that this institution should absorb all charity, nor that it should meet every emergency; there are other and kindred modes of action upon which your managers look with no jealousy, but would welcome as fellow laborers to a field large enough for all to act in, and to co-operate harmoniously. Our object is a simple one, and for support in that we trust we shall not in vain present our renewed call upon the Churches. We had fondly hoped that a building properly designed and arranged for the proper accommodation of the sick, would have been commenced, at least, during the past year. As yet, however, no sums have been contributed sufficient to justify such an undertaking, and the Managers must renew their earnest entreaty for such contributions, while at the same time they are compelled to acknowledge that even the annual thanksgiving collections have fallen somewhat short of the amount given in previous years. The Treasurer's report will exhibit the state of the finances, while the tabular statements presented by the excellent Senior-Resident Physician, Dr. F. P. Leverett, and that of the Steward will show whether the means at our disposal have been managed with such judicious economy as to entitle us to further assistance. It will be seen that the number of patients has exceeded that of any previous year, and the numerous applications which we have been obliged to refuse impresses upon us constantly the truth that we could enlarge the sphere of usefulness, increase the number of the recipients of medical and spiritual assistance to any extent for which provision can be made for their accommodation. And

e cannot but hope that another year may not be
 lowed to pass before such decided measures are
 adopted as shall secure the accomplishment of our
 earnest wishes. A strong inducement to urge such
 fort, is found in the fact that it is impossible for us
 to carry out in its full detail the arrangements of the
 institution, for the extension of religious instruction
 and consolation, which would require a resident
 chaplain and suitable Chapel. Neither of these can
 be had in our present building. It is true we have
 been able to maintain daily services through the kind
 attention of our most efficient Steward, whose faithful
 performance of this service, as well as the regular
 duties of his office, deserves our grateful recognition.
 The Rev. Richard D. Hall, has been compelled to
 resign the situation of Chaplain, greatly to the regret
 of the Board. The office falling under the exclusive
 control of the Bishop, your Board can only, while they
 lament the loss of the faithful services of the late in-
 incumbent, urge on the members of the Church, the
 prompt supply of those means which will enable the
 Bishop to appoint a successor. The lay religious
 instruction to which reference was made in a former
 report, is still conducted, greatly to the gratification
 of the Board; and we desire to express to those gentle-
 men, who so kindly devote their talents and bestow
 their time and thought on this duty, with no little toil
 and inconvenience, our high sense of the obligation
 under which we feel ourselves. Morning and Evening
 worship is also performed in the wards for the benefit
 of those patients who are unable to leave their beds.
 Your Board cannot close this report, without a final
 appeal for the means of erecting appropriate buildings.
 There is one branch of charity from which our present
 imperfect arrangement precludes us entirely, we allude
 to the relief which might be afforded to many persons

who, during the time of health, are able to procure for themselves all the comforts of comparative affluence, and whose habits and associations render it improper to place them in the common wards of a Hospital, during periods when sickness prevents them from the discharge of those duties from which they derive a maintenance. Applications for admission from such sufferers are often made, and it is painful either to refuse them or to subject them to the inconvenience inseparable from our present arrangements. For this class, as well as those in more abject "need," we earnestly solicit the sympathy and support of those to whom God has entrusted this world's goods.

REPORT OF CASES TREATED.

Three hundred and thirty-eight cases have been admitted to the Hospital of the Protestant Episcopal Church during the past year, which exceeds the number admitted in 1855, by fifty-seven; these, with twenty-two that remained in the House from last year, make three hundred and sixty patients that have been under treatment. Of these, one hundred and seventy-eight were medical cases, and one hundred and eighty-two were surgical. One thousand seven hundred and sixty-nine out-patients have been prescribed for, by the Resident Physicians in the Hall of the Hospital, or at their homes, according to the urgency of the cases, which is seventy-four more than were prescribed for last year.

Wm. D. Greetham.

Prayers which may be used at the Meetings of the Board, in conformity with By-Law II.

OUR FATHER, who art in heaven, Hallowed be Thy name. Thy kingdom come. Thy will be done on earth, as it is in heaven. Give us this day our daily bread. And forgive us our trespasses, as we forgive those who trespass against us. And lead us not into temptation; But deliver us from evil: For Thine is the kingdom, and the power, and the glory, for ever and ever. Amen.

DIRECT us, O Lord, in all our doings, with Thy most gracious favor, and further us with Thy continual help; that in all our works begun, continued, and ended in Thee, we may glorify Thy holy name, and finally, by Thy merey, obtain everlasting life; through Jesus Christ our Lord. Amen.

O LORD, who hast taught us that all our doings without charity are nothing worth; send thy Holy Ghost and pour into our hearts that most excellent gift of charity, the very bond of peace and of all virtues, without which whosoever liveth is counted dead before thee. Grant This for Thine only Son Jesus Christ's sake. Amen.

O FATHER of mercies and God of all comfort, our only help in time of need; look down from heaven, we humbly beseech Thee, behold, visit, and relieve those sick *persons* who are under our care. Look upon *them* with the eyes of Thy merey comfort *them* with a sense of Thy goodness; preserve *them* from the temptations of the enemy; give *them* patience under *their* affliction; and, in Thy good time, restore *them* to health and enable *them* to lead the residue of their lives in Thy fear and to Thy glory. Or else give *them* grace so to take Thy visitation, that after this painful life ended, they may dwell with Thee in life everlasting; through Jesus Christ our Lord Amen.

O God, from whom all holy desires, all good counsels and all just works do proceed, send down Thy blessings upon this Charitable Institution with which we are connected. Give to us, its managers, such wisdom, faith and patience, that we may overcome every difficulty, and so conduct its affairs that Thy glory may be promoted, and the temporal and spiritual comfort of many of Thy people be advanced. Be ever with us in our deliberations, that by Thy holy inspiration we may think those things that are good, and by Thy merciful guidance may perform the same. Stir up the wills of thy faithful people and open their hands, that means for carrying forward this work may be liberally supplied, and knowing what thing they ought to do, may they have power and grace faithful to fulfil the same, through Jesus Christ our Lord. Amen.

SIXTH ANNUAL MEETING OF CONTRIBUTORS.

Tuesday, January 6th, 1857.

At a meeting of the contributors to the Hospital of the Protestant Episcopal Church in Philadelphia, held this day, pursuant to the charter, at the Episcopal Rooms, Clayton T. Platt, Esq., was called to the Chair, and Dr. Morris, was appointed Secretary.

The reports of the Treasurer, of the Medical Board, and of the Board of Managers, were severally presented, and referred to the Board of Managers for publication.

The following gentlemen were elected Managers to supply the places of those whose terms expired this day, for a term of three years, viz :

Rev. M. A. DE WOLFE HOWE, D.D.,

Rev. RICHARD NEWTON, D.D.,

Rev. WM. BACON STEVENS, D.D.,

JOHN BOHLEN,

JOS. R. INGERSOLL,

WILSON C. SWANN, M.D.,

CLAYTON T. PLATT.,

EDWARD HARTSHORNE, M.D.,

On motion adjourned.

CLAYTON T. PLATT, *Chairman,*

CASPAR MORRIS, *Secretary.*

FIFTH ANNUAL REPORT OF BOARD OF MANAGERS.

It is with mingled emotions of gratitude and humiliation that the Managers of the Hospital of the Protestant Episcopal Church present to the Contributors their Fifth Annual Report: gratitude that they have been permitted to accomplish anything, small as is the amount, towards mitigating the sufferings, and soothing the sorrows of our fallen humanity; humiliation that they have not been able to accomplish more.

When they survey the immense field for philanthropic effort presented by our city, and think how thickly it is planted with those ills which man's transgressions have brought upon earth; when they look at a population of nearly half a million, and remember how large a proportion of these, must, by the necessity of the case, stand in need of assistance in the time of sickness, and comfort in the hour of death; and contrast with it the fact, that though the Pennsylvania Hospital opens its wards and spreads its free beds for the reception of about one hundred male and female medical and surgical charity patients, at all periods, and that noble as are the accommodations presented by that venerable charity, and ample as are the provisions made for the comfort and relief of those it does receive, its charities are limited both by its limited ability and by the limitation of distance; while to the few free beds of the St. Joseph's, and the small number we are yet able to support, are left the provision for the entire population of the northern part of the city, as well as the poor of our own Church at large. We cannot omit to avail ourselves of the opportunity presented by the recurrence of the Annual Meeting, to press on the

consideration of our fellow citizens, and our fellow members of the Protestant Episcopal Church especially, a new appeal for enlarged contributions. This is necessary to enable us to maintain the scale of action already adopted. So greatly has the cost of all the necessities of life advanced during the past and the preceding year, that it is absolutely impossible for us to avoid a large increase of expenditure. While the operation of the same cause creates an increased demand for our aid. It would be very injudicious economy to diminish the number of the recipients of our benevolence, since there are many of the expenses, and those too of the greatest proportionable magnitude, which would not be at all diminished, but must be as great for a small as for a large number of patients. Nor can it be necessary to remind those who have already taken an interest in the Hospital, that the present arrangement was not designed to be anything more than the germ from which an institution should be developed, more extended in its influence and better proportioned as well to the ability of our Church, as to the demands on our charity.

It is often necessary in the progress of such institutions to recur to the consideration of the principles on which they were founded, and the objects proposed in the organization. In our own case it was clearly to furnish a channel through which the charity of the Members of our Church could be applied to the relief of those suffering from sickness and poverty, without regard to the "creed, colour or country" of those who should be the objects of beneficence. The only claim to be presented by these was recognised in the description given by our Lord of those whom He constituted His representatives, "naked" and "sick." It was to enable the members of our Church to "visit" such with efficient relief that the Hospital was founded, and

we, to-day, present to you the same plea for enlarged contributions. These are absolutely necessary not only to the progress, but to the existence of the institution, since with it as with all human arrangements, to pause is to begin to die. It is not designed that this institution should absorb all charity, nor that it should meet every emergency; there are other and kindred modes of action upon which your managers look with no jealousy, but would welcome as fellow laborers to a field large enough for all to act in, and to co-operate harmoniously. Our object is a simple one, and for support in that we trust we shall not in vain present our renewed call upon the Churches. We had fondly hoped that a building properly designed and arranged for the proper accommodation of the sick, would have been commenced, at least, during the past year. As yet, however, no sums have been contributed sufficient to justify such an undertaking, and the Managers must renew their earnest entreaty for such contributions, while at the same time they are compelled to acknowledge that even the annual thanksgiving collections have fallen somewhat short of the amount given in previous years. The Treasurer's report will exhibit the state of the finances, while the tabular statements presented by the excellent Senior Resident Physician, Dr. F. P. Leverett, and that of the Steward will show whether the means at our disposal have been managed with such judicious economy as to entitle us to further assistance. It will be seen that the number of patients has exceeded that of an previous year, and the numerous applications which we have been obliged to refuse impresses upon us constantly the truth that we could enlarge the sphere of usefulness, increase the number of the recipients of medical and spiritual assistance to any extent for which provision can be made for their accommodation. An

we cannot but hope that another year may not be allowed to pass before such decided measures are adopted as shall secure the accomplishment of our earnest wishes. A strong inducement to urge such effort, is found in the fact that it is impossible for us to carry out in its full detail the arrangements of the institution, for the extension of religious instruction and consolation, which would require a resident Chaplain and suitable Chapel. Neither of these can be had in our present building. It is true we have been able to maintain daily services through the kind attention of our most efficient Steward, whose faithful performance of this service, as well as the regular duties of his office, deserves our grateful recognition.

The Rev. Richard D. Hall, has been compelled to resign the situation of Chaplain, greatly to the regret of the Board. The office falling under the exclusive control of the Bishop, your Board can only, while they lament the loss of the faithful services of the late incumbent, urge on the members of the Church, the prompt supply of those means which will enable the Bishop to appoint a successor. The lay religious instruction to which reference was made in a former report, is still conducted, greatly to the gratification of the Board; and we desire to express to those gentlemen, who so kindly devote their talents and bestow their time and thought on this duty, with no little toil and inconvenience, our high sense of the obligation under which we feel ourselves. Morning and Evening worship is also performed in the wards for the benefit of those patients who are unable to leave their beds. Our Board cannot close this report, without a final appeal for the means of erecting appropriate buildings. There is one branch of charity from which our present imperfect arrangement precludes us entirely, we allude to the relief which might be afforded to many persons

who, during the time of health, are able to procure for themselves all the comforts of comparative affluence, and whose habits and associations render it improper to place them in the common wards of a Hospital during periods when sickness prevents them from the discharge of those duties from which they derive maintenance. Applications for admission from such sufferers are often made, and it is painful either to refuse them or to subject them to the inconvenience inseparable from our present arrangements. For this class, as well as those in more abject "need," we earnestly solicit the sympathy and support of those to whom God has entrusted this world's goods.

REPORT OF CASES TREATED.

Three hundred and thirty-eight cases have been admitted to the Hospital of the Protestant Episcopal Church during the past year, which exceeds the number admitted in 1855, by fifty-seven; these, with twenty-two that remained in the House from last year, make three hundred and sixty patients that have been under treatment. Of these, one hundred and seventy-eight were medical cases, and one hundred and eighty-two were surgical. One thousand seven hundred and sixty-nine out-patients have been prescribed for, by the Resident Physicians in the Hall of the Hospital, or at their homes, according to the urgency of the cases, which is seventy-four more than were prescribed for last year.
